

## Available Capacities:

7,500 / 9,500 / 12,000 BTU.

### Features

Wide Blade

NO! Dust

High Lift-up

### Stylish and Aesthetic Panel

Samsung's Slim 1Way Cassette provides a simple and refined design. The clean lines and simple display design make this a modern classic, which looks great with any interior.

Classic Panel

Z-Sliding Panel

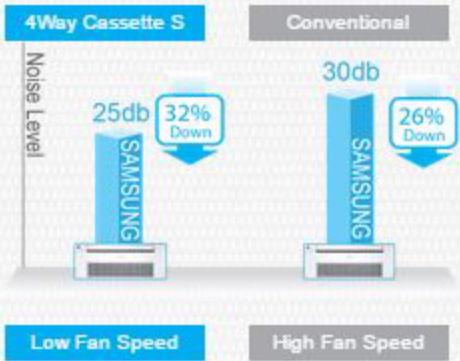

### Lighter Indoor Unit

Samsung is the first to apply ABS cabinets to its indoor units to provide the lightest units on the market. This slim and lightweight design makes installation and maintenance simple.

### Quiet Operation

Samsung new blade design drastically reduces noise levels so you can relax in peace and quiet.

### No Overflowing Drain Water

The check valve on the drain pump prevents drained water from flowing backward into the drain pan. This minimizes the the drain pan's water level so that you will never have to worry about water stagnation or overflowing drain water that could drip into your interior.

ONE-WAY FLOW

CLEAN CEILING

NO OVERFLOW

NO STAGNATION

### Feature Details

#### Powerful Airflow

Wide Blade

Wide blades in the indoor unit deliver cool or warm air at greater distances to provide even cooling and heating throughout the room.

1 Way Cassette

4 Way Cassette

#### Ceiling Dust Prevention

NO! Dust

The newly designed panel will control air direction in a way to avoid contact with the ceiling. This new design will prevent dust from accumulating on the ceiling after long periods of operation, keeping your interior space cleaner than ever.

Conventional Blade

New Blade

#### High Lift-up Drain Pump

High Lift-up

The lift-up drain pump lifts condensed water upto 29.5 compared to our competitor's limit of 27.5, allowing for more flexible and convenient installation.
